2. What personal data we collect

On the website: when you subscribe to the newsletter or use the contact form, we collect the information you provide, such as your name, your email address and your organisation.

When you browse, aggregated and anonymous statistics are produced by our audience measurement tool (Plausible Analytics). IP addresses and browser information are anonymised and immediately discarded, and no personal browsing data is stored (see Sections 1 and 7).

On the CONNECT hub: we collect the data you provide when you register as a member and build your profile, such as your name, email address, organisation, role and area of expertise, and the content you add to your profile. Based on your consent, some of this data may be shared with the other members of your communities.

We do not collect sensitive personal data, and we do not sell your data to third parties for marketing purposes.

3. Recipients of your data

Your data is processed by ENRICH GLOBAL. It may also be processed by our technical providers acting as processors, strictly for the purposes described in Section 1. Our main processors are:

- **OVH SAS** (hosting of the website and the CONNECT hub platform): 2 rue Kellermann, 59100 Roubaix, France. Data is hosted in data centres located in France.
- **Scaleway SAS** (email services and data storage): 8 rue de la Ville l'Évêque, 75008 Paris, France. Data is hosted in data centres located in France.

Audience measurement is performed with Plausible Analytics, a cookieless tool hosted by ENRICH GLOBAL on its own infrastructure.

All our processors are established in the European Union and process the data exclusively within the EU. We do not sell or rent your personal data to third parties.

4. Where your data is stored and how it is protected

Your data is stored in our databases and in those of our service providers, all located within the European Union. No data is transferred outside the EU.

We apply a range of physical, technical and organisational measures to keep your data secure, including firewalls, encryption of data in transit (TLS) and restricted access controls. Passwords are never stored in plain text: they are hashed using industry-standard algorithms, which means that no one — including our team — can read them.

5. Transfers outside the European Union

No personal data is transferred outside the European Union.

6. How long we keep your data

We keep your data only for as long as necessary for the purposes described above. You can request the removal of your personal data at any time using the “close my account” feature on the CONNECT hub platform or by writing to tech@enrich-global.eu; for the later your data will be deleted within 30 days of the request.

7. Cookies

The enrich-global.eu website and the CONNECT hub platform use only cookies that are strictly necessary for the operation of the service, such as session cookies used to keep you logged in and to ensure the security of your account. These cookies do not track your browsing activity and are not used for advertising or profiling purposes.

Neither the website nor the platform uses cookies to monitor the audience. Audience measurement is performed with Plausible Analytics, a cookieless tool that does not store any personal data and produces only aggregated, anonymous statistics (see Section 1). No third-party advertising or tracking cookies (such as Google Analytics) are placed on your device.

As only strictly necessary cookies are used, no cookie consent banner is required. Necessary cookies are exempt from consent under Article 82 of the French Data Protection Act and the applicable CNIL guidelines.

8. Embedded content from other websites

Pages on this site may include embedded content, for example videos, images or articles. Embedded content from other websites behaves in the same way as if you had visited the other website. These websites may collect data about you, use cookies and monitor your interaction with the embedded content, including if you have an account and are logged in to that website.

9. Your rights

You have the right to access, rectify and erase your data, to restrict or object to processing, and to data portability. Where processing is based on your consent, you can withdraw it at any time, without affecting processing carried out before the withdrawal. To exercise your rights, contact our Data Protection Officer at sklessova@enrich-global.eu, or tech@enrich-global.eu for the CONNECT hub. You also have the right to lodge a complaint with the French supervisory authority, the CNIL.
